Employee Management System

Documentation

Covers:
Manager Portal

Document Overview

Product	EMS – Employee Management System
Portal	Manager Portal
Purpose	This document provides a comprehensive UI reference for the EMS Manager Portal, covering all screens, sub-screens, and navigation flows for the Manager role.
Audience	Team Managers

Portal Introduction

The Manager Portal is a role-specific interface within the EMS platform, designed for team managers and department leads to oversee their team's day-to-day activities. It provides a focused set of tools covering attendance monitoring, leave management, task tracking, performance reviews, learning analytics, and compliance management.

Top Navigation Tabs

- Dashboard – Team overview and quick summary
- Projects – Project and task management
- Employees – Team member directory
- Plans – Organizational planning

Left Sidebar Navigation

Section	Menu Items
Main	Overview, Announcements, Tasks
Time & Attendance	Attendance, Leave
Communication	Chat
Growth	Performance, Learning
Resources	Documents, Analytics, Compliance

Screen Index

Screen #	Screen Name	Sub-Screens
1	Manager Dashboard – Overview	1
2	Announcements	3
3	Task Management	3
4	Attendance	12
5	Leave Management	19
6	Performance & Reviews	2
7	Analytics & Reports	7
8	Compliance & Policy Management	12

Screen 1 – Manager Dashboard (Overview)

Screen Name

Dashboard – Overview

Description

The Manager Dashboard is the landing screen after login for the Manager role. It provides a real-time summary of team attendance, task progress, and company-wide announcements.

UI Components

Team Attendance — Today

- Present — count with attendance rate percentage
- Absent — count with unexcused indicator
- Late Arrivals — count with cutoff time indicator
- Work From Home — count with Approved WFH status

Task Summary — This Month

- Tasks Assigned — total across team members
- Completed — count with completion rate percentage
- In Progress — count with near deadline indicator

Announcements Panel

- Lists recent company announcements with timestamps
- Edit and Delete action icons per announcement row
- Mark All Read option at top right

Navigation Flow

- Landing screen after Manager login
- Left sidebar provides access to all modules
- Announcements panel links to full Announcements screen

Screen 2 – Announcements

Description

The Announcements module allows managers to view, sort, and read company-wide announcements. Managers can filter by category and mark announcements as read.

Sub-Screens & UI Flow

#	Sub-Screen	Description	Key Actions
1	Main Page	Company Announcements list with summary count tabs (Total, Unread, Custom Alerts, Pending Action) and category filter tabs (All, General, Emergency, Events, Policies)	Search, Filter, Sort, Mark All Read
2	Sort By	Sort dropdown overlay with options: Newest First, Oldest First, Recently Updated, Priority, Unread First	Select sort option
3	View	Full detail view of a selected announcement showing complete message content	Mark as Read, Back to List

Navigation Flow

- Announcements menu → Main Page (default)
- Main Page → Sort icon → Sort By dropdown
- Main Page → click an announcement row → View detail
- View → Mark as Read button → status updated
- View → Back to List → returns to Main Page

Screen 3 – Task Management

Description

The Task Management module allows managers to view, create, and edit tasks assigned to team members. It provides a detailed task list with DevOps pipeline integration fields and status tracking.

Sub-Screens & UI Flow

#	Sub-Screen	Description	Key Actions
1	Tasks – Main Page	Summary metric cards: Active Tasks, Completed, In Progress, Overdue. Filter tabs: All, Overdue, In Progress, Done. Task list showing title, date, assigned to, Device Link (Repository, Branch, Pull Request, Pipeline Status), Priority tag, Status tag	Edit, Delete per row
2	Edit Task Modal	Pre-filled modal: Task Title, Status & Assignment (Status, Priority, Assigned To, Category), Timeline (Due Date, Estimated Hours), Device Link (Repository, Git Branch, Pull Request), Description	Cancel, Save Changes
3	Create Task Modal	Same structure as Edit modal but with empty fields for new task creation	Cancel, Create Task

Navigation Flow

- Tasks menu → Task Management main page
- Filter tabs: All, Overdue, In Progress, Done
- Task row → Edit button → Edit Task modal
- Edit modal → Save Changes → updated list
- Create Task button → Create Task modal → Create Task → added to list

Screen 4 – Attendance

Description

The Attendance module allows managers to track their own attendance as well as their team's. It includes check-in/check-out, today's team records, overtime tracking, regularisation management, attendance history, monthly summaries, WFH requests, and regularisation submission.

Tab Navigation

- Today's Records
- Overtime
- Regularisation
- History
- Monthly Summary

Sub-Screens & UI Flow

Live Attendance

#	Sub-Screen	Description	Key Actions
1	Check-In	Today's Attendance screen with live timer; manager's location and schedule details; Today's Goal section; Security/Task note panel	Check In
2	Checked Out	Active session timer running; team attendance status summary cards; Today's Goal progress; current location displayed	Check Out
3	Today's Record – Default	Attendance Overview with summary cards (Present, Absent, Late, WFH, Total); employee list with Department, Check-in, Check-out, Total Hours, Status columns	Filter, View

#	Sub-Screen	Description	Key Actions
4	Today's Record – Filtered	Same overview with active filters applied; narrowed employee list	Adjust Filters

Overview Tabs

#	Sub-Screen	Description	Key Actions
5	Today's Record – Employee Detail Panel	Slide-out panel for selected employee showing detailed attendance info: status, times, department	Close Panel
6	Overtime	Filtered view showing overtime records; columns: Employee, Age, Department, Overtime Hours, Reason, Status; pagination at bottom	Filter, View
7	Regularisation – List	Regularisation requests list; columns: Employee, Date, Reason, Status (Pending/Approved), Action; legend indicator	Approve, Reject
8	History	Historical attendance per employee; columns: Date, Check-in, Check-out, Office, Total Hours, Status; filter and search options	Filter, Search

Summary & Special Requests

#	Sub-Screen	Description	Key Actions
9	Monthly Summary – Team View	Team History / My History toggle; monthly summary table per employee with attendance stats; calendar view for selected month	Toggle view, Select month
10	Monthly Summary – My History	Personal attendance summary: Working Days, Avg Hours, Weekly Smart metric;	Filter, Export

#	Sub-Screen	Description	Key Actions
		bar chart of attendance pattern; circular progress indicator; daily log list with Date, Check-in, Check-out, Total Hours, Status, Type columns	
11	WFH Request Modal	Modal overlay on Today's Attendance; fields: Date picker, Reason for Request text area	Cancel, Submit Request
12	New Regularisation Modal	Modal overlay on Today's Attendance; fields: Effective Date picker, Reason for Request text area, supporting details	Cancel, Submit

Navigation Flow

- Attendance menu → Today's Record (default)
- Tab navigation: Today's Records, Overtime, Regularisation, History, Monthly Summary
- Today's Record → click employee row → Employee Detail Panel
- Monthly Summary → Team View / My History toggle
- Check-In screen → WFH Request button → WFH Request modal
- Check-In screen → New Regularisation button → Regularisation modal

Screen 5 – Leave Management

Description

The Leave Management module provides managers with full visibility of their own leaves and their team's leave applications. It supports applying for leave, approving or rejecting team requests, viewing leave balances, browsing leave history, and accessing a monthly calendar view of team leave activity.

Tab Navigation

- Applications – Team leave applications
- Leave Balances – Leave balance summary per type
- History – Team leave history and detailed breakdown
- Leave Policy – Organization leave policy reference
- Leave Calendar – Monthly calendar view of team leaves

Sub-Screens & UI Flow

Leave List Views

#	Sub-Screen	Description	Key Actions
1	Default Page	Summary metric cards carousel at top (Own Leave Days, Pending/Approved Leave, Remaining Leave); leave list with columns: Date Range, Type, Reason, Applied Date, Status, Actions; filter tabs: All, Approved, Pending, Rejected	Filter, Apply for Leave, Team History
2	Cards Carousel – View 2	Cards scrolled to show second set of metrics; same list below	Scroll carousel
3	Cards Carousel – View 3	Cards scrolled further showing additional metrics	Scroll carousel
4	Approved Filter	List filtered to Approved leaves only;	View

#	Sub-Screen	Description	Key Actions
		Approved status tags per row	

Status Filters & Apply Flow

#	Sub-Screen	Description	Key Actions
5	Pending Filter	List filtered to Pending leaves; Cancel action per row	Cancel leave
6	Rejected Filter	List filtered to Rejected leaves; Rejected status tags per row	View
7	Apply for Leave – Default Modal	Modal with: Select Type dropdown, From/To date pickers, Reason text field	Cancel, Submit Request
8	Apply for Leave – Select Leave Type	Same modal with leave type dropdown expanded showing options with remaining days: Casual Leave, Sick Leave, Maternity Leave, Paternity Leave	Select leave type

Apply Flow & Applications Tab

#	Sub-Screen	Description	Key Actions
9	Apply – Preview Leave Days	Modal with dates selected; preview showing remaining leave days for selected type; Reason field	Cancel, Submit Request
10	Apply – Preview Exceeding	Same modal with warning state when selected days exceed available balance	Cancel, Submit Request
11	Submit Request Success	Main list with success toast banner confirming leave request submitted and pending approval	Dismiss banner
12	Applications Tab	Full team leave applications view; columns: Employee, Leave Type, From, To,	View, Approve, Reject

#	Sub-Screen	Description	Key Actions
		Days, Reason, Status, Actions; filter: Date range, All Leaves, All Employees	

View, Balances, History & Policy

#	Sub-Screen	Description	Key Actions
13	Leave Request View Drawer	Slide-out drawer with: Employee name, Status tag, Leave Type, Start/End Date, Duration, Applied On, Reason, Application Details section	Close, Approve, Reject
14	Leave Balances Tab	Annual Leave, Sick Leave, Casual Leave balance cards with progress bars showing usage vs. available	View balances
15	Leave History – List View	Team leave history list; columns: Employee, Leave Type, Date From, To, Days, Reason, Status	Filter, Search
16	Leave History – Detail Panel	Side panel showing detailed breakdown per leave type: Annual, Sick, Casual, Maternity, Paternity, Compensatory Off with policy summary and usage	Close panel

View Drawer & Leave Calendar

#	Sub-Screen	Description	Key Actions
17	Sick Leave View Drawer	Drawer for specific sick leave request; employee name, Approved status, Application Details, Balance Data notice	Close
18	Monthly Summary Calendar – Empty	Calendar grid for selected month; legend: Approved Leave, Pending Leave,	Export, Add Leave, Select date

#	Sub-Screen	Description	Key Actions
		Holiday, Weekend; prompt to click date	
19	Monthly Summary Calendar – Date Selected	Same calendar with a highlighted date; right panel shows team members on leave for that date with status tags (Approved, Pending)	Export, Add Leave

Navigation Flow

- Leave menu → Default Page (own leaves)
- Filter tabs: All, Approved, Pending, Rejected on own leave list
- Apply for Leave button → modal → Select Type → Preview → Submit
- Applications tab → team leave list → View → Leave Request drawer → Approve / Reject
- Leave Balances tab → balance cards view
- History tab → team history list → click employee → Detail Panel
- Leave Calendar tab → calendar → click date → team members panel

Screen 6 – Chat

Screen Name	Chat
Navigation	Communication > Chat
Purpose	Enables real-time communication between employees through channels, rooms, and direct messages.

The Manager Portal helps managers supervise teams, monitor performance, coordinate projects, and manage department communication efficiently. Managers can access public channels and permitted private channels, while department rooms are limited to assigned project departments for secure collaboration. The portal is focused on team coordination, operational visibility, and workflow management.

UI Sections & Sub-Screens

- Default State — Community workspace with Channels, Rooms, and Direct Messages in left panel; prompt to select a conversation; Check Mentions and Create Room quick actions
- Channel Conversation View — Active channel messages in main area; message input bar with attachment, emoji, and send options; right panel tabs: Members, Files, Starred, Info
- Members Tab — Online and offline member list; Generate Link / Invite option
- Files Tab — All files shared in the channel with file type and size
- Starred Tab — Bookmarked messages with Delete All option
- Info Tab — Channel name, description, type, visibility, and member list grouped by online/offline status
- Message States — Sent indicator, Read indicator, React (emoji and Reply on hover), Typing state, After-type state

UI Flow

- Manager selects a channel, room, or direct message from the left panel
- Conversation opens in the main area with the right panel for additional details
- Manager can send messages, attach files, react to messages, and reply
- Tabs in the right panel switch between Members, Files, Starred, and Info views

Screen 7 – Payroll

Screen Name	Payroll – My Payroll
Navigation	HR & Finance > Payroll
Purpose	Allows Managers to view their salary breakdown, payslips, active deductions, and payroll history.

UI Sections & Sub-Screens

- Current Tab — Summary cards: Net This Month, Basic Salary, Active Deductions, Total Allowances; Earnings Breakdown section; Deductions This Month section; Net Take-Home Salary banner with pay breakdown indicator
- Payslips Tab — Info banner about HR-generated payslips; Payslip table (Slip ID, Month, Basic, Deductions, Net Pay, Status, Actions); Status: Generated / Paid; Download action per entry
- Deductions Tab — Active deduction cards (Loan, Advance) showing: Status, Repayment progress bar, Total amount, Remaining, Monthly EMI, Instalments Left, Duration; Summary footer: Total Outstanding, Monthly Deduction, Active Deductions count
- History Tab — Monthly payroll history table (Month, Basic, Allowances, Deductions, Net Pay, Change, Status)

UI Flow

- Managers lands on the Current tab showing the current month's salary details
- Payslips tab lists all generated and paid payslips with download option
- Deductions tab shows all active loan and advance deductions with EMI details
- History tab provides a full monthly payroll audit trail

Screen 8 – EXPENSES

Screen Name	Expenses – My Expenses & Reimbursements
Navigation	HR & Finance > Expenses
Purpose	Allows Managers to submit, manage, and track expense claims along with receipts and approval history.

UI Sections & Sub-Screens

- Home Page — Summary cards: Submitted, Approved, Rejected, Reimbursed; My Claims table (Title, Category, Amount, Date, Status, Actions); Search and status filter; Expense Categories section (budget limit, type, requirements)
- New Claim Modal — Form fields: Title, Category, Expense Date, Amount, Notes; Receipt upload area; Actions: Save, Close
- Edit Claim Modal — Pre-filled form with same fields; Actions: Update, Close
- Upload Receipt Modal – Empty State — Drag and drop area; Optional fields: Receipt amount, date, vendor name, receipt number; Actions: Upload, Close
- Upload Receipt Modal – With Document — Shows attached file; Same optional fields; Actions: Upload, Close
- Receipts Modal – With Receipts — Lists uploaded receipt files; Action: Close
- Receipts Modal – No Receipts — Empty state message; Action: Close
- History Modal – Successful — Claim summary panel; Approval timeline (Created, Submitted, Approved by manager)
- History Modal – Pending — Same layout with pending steps greyed out in timeline

UI Flow

- Manager views all claims on the home page with status summary
 - New claim is created via the New Claim modal
 - Receipts are uploaded per claim via the Upload Receipt modal
 - Claim history and approval timeline are accessed via the History modal per claim row
 - Manager can edit draft claims via the Edit Claim modal
-

Screen 9 – Performance & Reviews

Description

The Performance & Reviews module allows managers to track employee performance through structured review cycles. It provides self-assessment visibility and enables managers to submit and view manager reviews with promotion recommendations.

Top-Level Tabs

- Performance Goals
- Reviews

Reviews Sub-Tabs

- Review Cycles
- All Reviews
- Self Assessments
- Employee's Assessments
- Summary & Scores

Summary Metric Cards (shared)

- Active Cycles
- Pending Reviews
- Completed
- Avg Score
- Promotions

Sub-Screens & UI Flow

#	Sub-Screen	Description	Key Actions
1	Self Assessments Tab	Lists employee-submitted self-evaluations; columns: Employee, Review Cycle, Overall Score (star rating), Submitted Date, Status; filter: Search, All Cycles, All Types; pagination	New Assessment, View per row

#	Sub-Screen	Description	Key Actions
2	Manager Review – Employee's Assessments Tab	Lists manager-submitted evaluations; columns: Employee, Reviewed By, Cycle, Score (star rating), Promotion tag, Status; Recommended promotion tag shown; pagination	New Manager Review, View per row

Navigation Flow

- Performance menu → Reviews tab (default)
- Sub-tab navigation: Review Cycles, All Reviews, Self Assessments, Employee's Assessments, Summary & Scores
- Self Assessments tab → New Assessment button → create assessment
- Employee's Assessments tab → New Manager Review button → create manager review
- Row three-dot menu → view or edit review details

REMAINING ALL SCREENS SAME AS EMPLOYEE PORTAL

Screen 10 – LMS

Screen Name	Learning Management
Access Path	Sidebar > GROWTH > Learning
Navigation Location	Sidebar — GROWTH section

Purpose

Enables the Manager to create and manage courses and quizzes, assign learning content to employees or teams, track progress and completion, and analyze learning performance.

Top-Level Navigation

- Tabs: Courses | Quizzes | Analytics

Courses Tab — Default View

- Stat Cards — Total Courses, Enrollments, Quizzes, Certificates Issued
- Create Course button
- Filters — Search, Category, Status
- Course Cards Grid — icon, title, description, tags (difficulty / status / category), assigned avatars, completion progress bar, duration; per-card actions: View, Edit, Analytics, Assign

Create Course — 5-Step Flow

- Step 1 — Course Basics: Course Title, Short Description, Category, Difficulty Level, Duration, Deadline, Thumbnail (drag & drop)
- Step 2 — Content: Content Type selector, Upload Content (drag & drop), Learning Objectives, Tags
- Step 3 — Assign Users: Search & Select Employee, Or Assign by Team / Role, individual Add buttons
- Step 4 — Completion Rules: Require quiz toggle, Minimum passing score, Certificate on completion toggle, Send reminder notifications toggle, Allow retakes toggle, Reminder days before deadline
- Step 5 — Review & Publish: Read-only summary of all settings; actions: Save as Draft, Publish Course

Particular Course Page

- Course title, status badge, tags, action buttons: Edit, Assign Course, Send Reminder, Export Report
- Stat Cards — Total Assigned, Completed, In Progress, Not Started, Completion Rate %
- Enrolled Employees table — Employee, Status, Progress bar, Score, Last Active, Remind action

Edit Course Modal

- Add Module tab — Module Title, Content Type (PDF / Video / Link), upload area or URL input, Module Description
- Create Quiz tab — Quiz Title, CSV upload, Passing Score, Time Limit, Shuffle Questions, Allow Retakes

Send Reminder Modal

- Target Audience display, Message Preview; actions: Cancel, Send Now

Assign Course Modal — 3 Assignment Types

- Project Team — Select Team dropdown, Due Date, Notify toggle
- Specific Employee — Search & Add employees, Due Date, Notify toggle
- Entire Company — informational note, Due Date, Notify toggle

Quizzes Tab

- Stat Cards — Total Quizzes, Active, Avg Pass Score
- Create Quiz button
- Quiz Table — Quiz Title, Associated Course, Questions count, Pass Score, Time Limit, Status, Created Date, Edit and Delete actions

Create New Quiz Page

- Quiz Basics — Quiz Title, Associated Course, Time Limit, Passing Score %, Shuffle Questions toggle, Allow Multiple Attempts toggle
- Questions Section — Bulk Upload CSV option, + Add Question button; question cards: Multiple Choice type, question text, 4 options with correct answer radio, Copy and Delete per question
- Actions: Cancel, Save Draft, Publish Quiz

Edit Quiz Page

- Editable Quiz Basics (title, pass score, time limit)
- Questions section — same structure as create; correct answer highlighted
- Settings panel (right side) — Shuffle Questions, Allow Retakes, Show Answers After
- Status panel — Active / Draft status indicator
- Upload Questions CSV panel — drag & drop to replace questions
- Actions: Cancel, Save as Draft, Save Changes

Analytics Tab

- Alert banners — Employees Not Started, Low Completion Courses, Recent Quiz Failures
- Stat Cards — Total Enrollments, Avg Completion %, Avg Quiz Score, Quiz Pass Rate
- Sub-tabs — Employees | Courses | Quizzes
- Employees sub-tab — Completion Trend chart, Enrollment by Category chart, Employee table; clicking a row opens Employee Analytics page with enrolled courses and a Course Detail view
- Courses sub-tab — Course table with completion metrics; clicking a row opens Course Analytics page with enrolled employees table
- Quizzes sub-tab — Quiz Results table; clicking a row opens Quiz Analytics page with attempt details and Score Distribution panel

Screen 11 – Document Management

Description

The Document Management module enables HR to upload, view, download, and share documents. It provides tabbed views to organize documents by ownership and sharing status.

Tabs

- All Documents – Full document library
- My Documents – Documents owned by the logged-in user
- Shared with Me – Documents shared by others
- Shared by Me – Documents the user has shared (sharing activity log)

Sub-Screens & UI Flow

#	Sub-Screen	Description	Key Actions
1	Main Page – All Documents	Document list with Title, Category, Owner, Size, Version, Status, Access Level columns	View, Download, Upload Document
2	Upload Modal	Modal with Title, Description, Category, Tags, Access Level, File upload area	Cancel, Upload
3	Download Success	Same list view with success banner confirming download	Dismiss banner
4	View – Document Details	Modal with document metadata: Title, Status, Category, Description, Uploaded By, Size, Version, Downloads, Created, Tags	Close, Download
5	My Documents	Filtered list of documents owned by the current user	View, Download
6	Shared with Me	Filtered list of documents shared with the current user	View, Download
7	Shared by Me	Document Sharing Activity table: Document, Shared With, Shared By,	View sharing records

#	Sub-Screen	Description	Key Actions
		From/To, Expires, Actions	

Navigation Flow

- Documents menu → All Documents tab (default)
- Tab navigation: All Documents, My Documents, Shared with Me, Shared by Me
- Any row → View button → Document Details modal
- Any row → Download button → file downloads with success banner
- Upload Document button → Upload modal

Screen 12 – Analytics & Reports

Description

The Analytics module provides learning and performance insights scoped to the manager's team. It covers employee completion trends, course analytics, and quiz performance with drill-down views for individual employees, courses, and quizzes.

Tabs

- Employees
- Courses
- Quizzes

Top Alert Banners

- Employees Not Started alert
- Low Completion Courses alert
- Recent Quiz Failures alert

Summary Metric Cards (shared)

- Total Enrollments
- Avg Completion
- Avg Quiz Score
- Quiz Pass Rate

Sub-Screens & UI Flow

Employees Tab

#	Sub-Screen	Description	Key Actions
1	Employees Overview	Completion Trend chart; Enrollment by Category chart; employee list with columns: Employee, Role, Team, Enrolled, Completion %, Avg Score, Last Active;	View employee, Export

#	Sub-Screen	Description	Key Actions
		date range filter; Export button	
2	Particular Employee	Employee profile header (Name, Role, Team, Email, Employee ID); metric cards (Enrolled, Completed, In Progress, Not Started, Avg Score); enrolled courses list with Status, Progress, Score, Completed On	Export Report, Back to Analytics
